

All Things New

planetboom

You can take my mourning
Turn it into dancing, Lord
Take a broken vessel
Put it back together, Lord

(Everybody let's go crazy)

You can take the scars and
Turn them into something beautiful
Every moment you have mended
That's just what Your goodness does

You make all things
All things new
You make all things beautiful
Jesus, You rose again
Defeated death, now I live
You make all things
All things new

All things new

All things new

All things new
