

First Love Fire

planetboom

We Your people humbly pray
Turning from all other ways
To You, to You
Hear from Heaven
Heal our land
Pour Your Spirit out on us
Again, again

We ask for this city
We ask for this nation
Pour out Your mercy, let it awaken

Fresh Fire burn in our hearts
Come let it awaken a passion
Your love has branded our hearts
Jesus we are desperate so let it burn

Come revive that first love fire
First love fire, first love fire again
Come revive that first love fire
First love fire, first love fire again

Sons and daughters prophesy
Dreams and visions come alive
Anew in You

Come like Fire, come like Rain
Pour Your Spirit out on us
Again, again

We ask for this city
We ask for this nation
Pour out Your mercy, let it awaken

Fresh Fire burn in our hearts
Come let it awaken a passion
Your love has branded our hearts
Jesus we are desperate so let it burn

Come revive that first love fire
First love fire, first love fire again
Come revive that first love fire
First love fire, first love fire again

Blow, wind from Heaven
Blow, on these embers
Blow, reignite my passion
I wanna burn for You
I wanna burn for You

Flow, anointing oil
Flow, wash me over
Flow, filled with power
I will go for You
I will go for You

Fresh Fire burn in our hearts

Come let it awaken a passion
Your love has branded our hearts
Jesus we are desperate so let it burn

Come revive that first love fire
First love fire, first love fire again
Come revive that first love fire
First love fire, first love fire again

Come revive that first love fire
First love fire, first love fire again
Come revive that first love fire
First love fire, first love fire again

Blow wind from Heaven
Blow on these embers
Blow reignite my passion
I wanna burn for You
I wanna burn for You

Flow anointing oil
Flow wash me over
Flow filled with power
I will go for You
I will go for You

Blow wind from Heaven
Blow on these embers
Blow reignite my passion
I wanna burn for You
I wanna burn for You

Flow anointing oil
Flow wash me over
Flow filled with power
I will go for You
I will go for You
I will go for You
I will go for You
