

Found You

planetboom

Jesus opened up my eyes
Now I can see the light
Heaven's my reality
Praise God!
Yeah I could search the world
But nothing else compares
To what I've found in Jesus

All my life
I've been searching for the answer
Now I've found life
I got everything I need 'cause I found You
Found You
God You're all I need
And I found You
Found You
You're everything to me
And I found You

Now I'm gonna tell my whole world about You
Now I'm gonna tell my whole world about You
Now I'm gonna tell my whole world about You
Now I'm gonna tell my whole world about You
Yeah I gotta tell the whole world about You

Yeah I gotta tell the whole world about You

Every time I feel alone
'Cause heaven is my home
I know that You're always here
Praise God!
Jesus I believe
I've tasted and I've seen
God You are amazing

All my life
I've been searching for the answer
Now I've found life
I got everything I need 'cause I found You

All my life
I've been searching for the answer
Now I've found life
I got everything I need 'cause I found You

I can't keep this to myself
I love You forever
I'll tell everybody else
Jesus is my treasure
Taste and see that God is good
You are good forever
Now I'm gonna tell my whole world about You

I can't keep this to myself
I love You forever
I'll tell everybody else
Jesus is my treasure

Taste and see that God is good
You are good forever
Now I'm gonna tell my whole world about You

I can't keep this to myself
I love You forever
I'll tell everybody else
Jesus is my treasure
Taste and see that God is good
You are good forever
Now I'm gonna tell my whole world about You

Now I'm gonna tell my whole world about You
Now I'm gonna tell my whole world about You
Now I'm gonna tell my whole world about You
Now I'm gonna tell my whole world about You
Yeah I gotta tell the whole world about You

Yeah I gotta tell the whole world about You
