

# Loved By You

planetboom

This is so deep  
This is so powerful  
More than just a feeling  
This truth is foundational  
This is so real  
This is so personal  
More than just religion  
My God is relational

Now I, I made up my mind  
This is what I believe

I am so loved by You  
I am so loved by You  
It's do deep in my heart  
And I know it's true  
I am loved by You

Nothing in all creation  
Could ever separate us  
I believe Your promise Jesus  
I know I am that loved by You

You're my God, love unconditional  
More than I imagine  
You're working miracles now

Now I, I made up my mind  
This is what I believe

I am so loved by You  
I am so loved by You  
It's do deep in my heart  
And I know that it's true  
I am loved by You

I am so loved by You  
I am so loved by You  
It's do deep in my heart  
And I know that it's true  
I am loved by You

No sin, no shame  
No fear, no pain  
Is ever gonna come between us  
That's the power of the love of Jesus  
Every battle has been won  
Every death is overthrown  
That's the power of the love of Jesus  
That's the power of the love of Jesus

I am so loved by You  
I am so loved by You  
It's do deep in my heart  
And I know that it's true  
I am loved by You
