

One And Only

planetboom

I got a feeling
On the inside of my heart
Something's bursting out
I can't get enough
All I want and all I need is You

I give You praise
For everything that You have done
Forever thankful
For the victory You've won
All I want and all I need is You

You said You'd never leave
Your love for me will never fail
And I believe it
Being with You Jesus
Nothing is greater than this

All I want is You
Nothing else will do
I give You all the glory
'Cause You're my one and only
All I want is You

I got a passion
And I gotta let it out
Forever changed
By the power of Your love
All I want and all I need is You

You said You'd never leave
Your love for me will never fail
And I believe it
Being with You Jesus
Nothing is greater than this

All I want is You
Nothing else will do
I give You all the glory
'Cause You're my one and only
All I want is You

I said it's me, and You
And nothing else will do
I said it's me, and You
And nothing else will do
I said it's me, and You
And nothing else will do
Je-Je-Je-Jesus

I said it's me, and You
And nothing else will do
I said it's me, and You
And nothing else will do
I said it's me, and You
And nothing else will do
Je-Je-Je-Jesus

All I want is You
Nothing else will do
I give You all the glory
'Cause You're my one and only
All I want is You

I said it's me, and You
And nothing else will do
I said it's me, and You
And nothing else will do
I said it's me, and You
And nothing else will do

I said it's me, and You
And nothing else will do
I said it's me, and You
And nothing else will do
I said it's me, and You
And nothing else will do
Je-Je-Je-Jesus

I said it's me, and You
And nothing else will do
I said it's me, and You
And nothing else will do
I said it's me, and You
And nothing else will do
Je-Je-Je-Jesus

I said it's me, and You
And nothing else will do
I said it's me, and You
