

Only One Me

planetboom

The world is like a jigsaw
That seems to be missing a piece, or
It can feel like a see-saw
Up and down, and up and down
We're all looking for an answer
Waiting for a man with a plan, but
All we need for change
Can be found in our hands, so

I put my hand up, for the world to see
It's time to stand up, and be who I'm made to be
The future is as bright as I make it
So I'll make it, shine

And I'ma be the best me, that I can be
Yeah, I was born to do amazing things
I can be the change that the future needs
'Cause there's only one me

And I'm gonna change the world
I'm gonna, I'm gonna change the world
Nothing gonna stop me now
Nothing gonna, nothing gonna stop me now
I was born to be the missing piece
To be the change that my world needs
The difference I want to see
'Cause there's only one me

The world is like a jigsaw
That seems to be missing a piece, so
I'ma put my hand up, and stand up
'Cause the missing piece is me

And I'ma be the best me, that I can be
Yeah, I was born to do amazing things
I can be the change that the future needs
'Cause there's only one me

And I'm gonna change the world
I'm gonna, I'm gonna change the world
Nothing gonna stop me now
Nothing gonna, nothing gonna stop me now
I was born to be the missing piece
To be the change that my world needs
The difference I want to see
'Cause there's only one me...
