

All Things New

Planetshakers

You can take my mourning
Turn it into dancing Lord
Take a broken vessel
Put it back together Lord
You can take the scars and
Turn them into something beautiful
Every moment you have mended
That's just what Your goodness does

You make all things
All things new
You make all things beautiful
Jesus, You rose again
Defeated death, now I live
You make all things
All things new

All things new
All things new

Bursting through the darkness
Shining like the break of day
Cutting through the silence
I can hear the sound of change
Things that have been buried
You are resurrecting here again
Every prayer You have remembered
True to all Your promises

You make all things
All things new
You make all things beautiful
Jesus, You rose again
Defeated death, now I live
You make all things
All things new

All things new
All things new

I'm singing, I'm dancing, alive again
I thank you, I praise You with everything
You're greater, my Saviour, than anything
Forever and ever You're reigning

You make all things
All things new
You make all things beautiful
Jesus, You rose again
Defeated death, now I live
You make all things
All things new

All things new
All things new

I'm singing, I'm dancing, alive again

I thank you, I praise You with everything
You're greater, my Saviour, than anything
Forever and ever You're reigning
And You make all things new
