

Fall On Me

Planetshakers

Let Your rain come and fall on me now
Let Your rain come and fall on me
Come and fall on me
'Cause You're all I need now

Even where there's dryness
There's a silver lining
'Cause changing is the climate
There's flashes of Your lightning

So I run into
The downpour of Your perfect love
I run to You
I'm holding on I won't let go

So let Your rain come and fall on me now
Let Your rain come and fall on me
Come and fall on me
'Cause You're all I need now

This atmosphere is open
Miracles a flowing
You are here I know it
It's a supernatural moment

So I run into
The downpour of Your perfect love
I run to You
I'm holding on I won't let go

Let Your rain come and fall on me now
Let Your rain come and fall on me
Come and fall on me
'Cause You're all I need now

I'm dancing in Your rain
In showers of Your glory
I'm giving You the praise
I'm dancing in Your rain
Everything has changed
I'll never be the same
I'm dancing in Your rain
In showers of Your glory
I'm giving You the praise
I'm dancing in Your rain
Everything has changed
I'll never be the same

I'm dancing in Your rain
In showers of Your glory
I'm giving You the praise
I'm dancing in Your rain
Everything has changed
I'll never be the same
I'm dancing in Your rain
In showers of Your glory
I'm giving You the praise

I'm dancing in Your rain
Everything has changed
I'll never be the same
