## **Fire Fall**

## **Planetshakers**

I hear You calling me into the deep I leave my comfort behind My heart responding, I stand to my feet I'm stepping over the line

Refuel the fire
I want to burn brighter
I want to burn brighter
My all on the altar
To carry Your fire
To carry Your fire

Let Your fire fall
All consuming fire fall
There is nothing I want more
Than to carry Your flame
Always, to carry Your flame

Heaven's door is wide open to me
Put all excuses aside
Boldly running it's all You that I seek
You're my only desire

Refuel the fire
I want to burn brighter
I want to burn brighter
My all on the altar
To carry Your fire
To carry Your fire

Let Your fire fall
All consuming fire fall
There is nothing I want more
Than to carry Your flame
Always, to carry Your flame
Spirit move
We're hungry to encounter You
Come and sweep across this place
Like a rushing wind
Right now, come and move again

Lord we desire More of your fire Come and consume us Fan into flame Pour out Your Spirit Lord how we need it Come and consume us Fan into flame Lord we desire More of your fire Come and consume us Fan into flame Pour out Your Spirit Lord how we need it Come and consume us Fan into flame

Let Your fire fall
All consuming fire fall
There is nothing I want more
Than to carry Your flame
Always, to carry Your flame
Spirit move
We're hungry to encounter You
Come and sweep across this place
Like a rushing wind
Right now, come and move again

Lord we desire More of your fire Come and consume us Fan into flame Pour out Your Spirit Lord how we need it Come and consume us Fan into flame Lord we desire More of your fire Come and consume us Fan into flame Pour out Your Spirit Lord how we need it Come and consume us Fan into flame
