

Let's Go!

Planetshakers

The shadows of my yesterday
Clouded up my faith to pray
But You blew it all away

The voices tried to pull me down
And bury me into the ground
But you made the greater sound

And now I hear You calling me
The voice of a raging sea
This is your destiny

Let's go!
Let the music play,
it's time to celebrate
'Cause it's a brand new day

Let's go!
We are so alive
and God is on our side

With Your blood You sacrificed
Giving all You paid the price
You have opened paradise

And now I hear You calling me
The voice of a raging sea
This is your destiny

Let's go!
Let the music play,
it's time to celebrate
'Cause it's a brand new day

Let's go!
We are so alive
and God is on our side

You glory rises like the sun
Radiating life to everyone
Now death is over and I'm alive

I'm taking hold of this victory
Now I'm running in my destiny
For Your glory I will go

You glory rises like the sun
Radiating life to everyone
Now death is over and I'm alive

I'm taking hold of this victory
Now I'm running in my destiny
For Your glory I will go

Let's go!
Let's go!

Let's go!
Let the music play,
it's time to celebrate
'Cause it's a brand new day

Let's go!
We are so alive
and God is on our side
