

Our faith is breaking through the ceiling
There's no doubt, we are believing
That in this moment we are seeing
Everything that we've been dreaming

Cause You go beyond, what we desire
You're reaching higher, greater than all
You're never ending, and You overflow
Now to Him, all glory and power
We sing our praise, over and over again
Over and over again

There's no limit to Your power
Lord we know that You are greater
In every season You are stronger
Showing how Your love is deeper

And You go beyond, what we desire
You're reaching higher, greater than all
You're never ending, and You overflow
Now to Him, all glory and power
We sing our praise, over and over again
Over and over again

If you love Him, don't stop singing
Everybody keep on praising
If you love Him, don't stop singing
Everybody keep on praising

Here we are with hands raised to the sky
You alone are all that we desire
We are ready, hearts are open wide
Overflow us, saturate our lives

If you love Him, don't stop singing
Everybody keep on praising
If you love Him, don't stop singing
Everybody keep on praising
