

Presence

Planetshakers

When I walk through the valley
I won't fear 'cause You're with me
Every step You are leading
So every day I'm believing

The moment I draw near
I feel Your presence coming to me
And my heart is free
For one day in your courts
Is better than a thousand elsewhere
Where You are I'm there

When I wake in the morning
My first move is to lean in
And all day, 'til the evening
I know You're never leaving

The moment I draw near
I feel Your presence coming to me
And my heart is free
For one day in Your courts
Is better than a thousand elsewhere
Where You are I'm there

There's one thing I desire
To dwell within the house of the Lord
All the days of my life
To dance around Your throne
To join in with the angels and sing
All our praise to the King

The moment I draw near
I feel Your presence coming to me
And my heart is free
For one day in Your courts
Is better than a thousand elsewhere
Where You are I'm there

There's one thing I desire
To dwell within the house of the Lord
All the days of my life
To dance around Your throne
To join in with the angels and sing
All our praise to the King
