

Take Me

Planetshakers

Hear you voice
A gentle whisper
Calls from deep within
On my knees my heart it cries out
I'm longing to draw near
Hide me now under the shadow of Your wings
Lord into your presence I will run

Take me away with you
I wanna be close to you
Take me away into the secret place

Take me into your arms
Here in your presence I belong
Take me away into the secret place

Let Your glory fill this place oh god
Fill this place

Ohhh Lord
The secret place
Wanna go there with you
The secret place
Ohh want you take me there Lord
