

# The Rock

Planetshakers

In our darkest days  
Through the fear and pain  
You were always there with us  
It's only by Your grace  
That we are here today  
We're the evidence of love

Over and over, You have proved  
You are the rock that'll never move  
You are the rock that'll never move  
Again and again, You've come through  
Always faithful, forever true  
'Cause You are the rock that'll never move  
You are the rock that'll never move

Whatever we will face  
In the coming days  
We will never walk alone  
And through it all we praise  
Our hope will never change  
Where Your presence is we're home

'Cause over and over, You have proved  
That You are the rock that'll never move  
You are the rock that'll never move  
Again and again, You've come through  
Always faithful, forever true  
'Cause You are the rock that'll never move  
You are the rock that'll never move

There's no one like You God  
Yeah

Nothing's gonna shake our faith  
No matter what the world may say  
We know Your word will never change  
We stand on better promises

Nothing's gonna shake our faith  
No matter what the world may say  
We know Your word will never change  
We stand on better promises

We stand on better promises  
We stand on better promises  
We stand on better promises

Over and over, You have proved  
That You are the rock that'll never move  
You are the rock that'll never move  
Again and again, You've come through  
You're always faithful, forever true  
'Cause You are the rock that'll never move  
You are the rock that'll never move

Nothing's gonna shake our faith  
Nothing's gonna shake our faith

Nothing's gonna shake our faith  
Yeah
