

# Through It All

Planetshakers

It's the way You move  
And everything You do  
The way You touch my heart again  
I'm in love with You

This is why  
I praise You, I praise You  
I lift You high  
I praise You, I praise You

Through it all  
I will keep on singing to You  
Through it all  
I will keep believing in You

Whatever happens  
There is one thing that I know  
You are with me  
Everywhere that I may go  
I will trust You  
And I praise You through it all  
Yeah, I praise You through it all  
Yeah, I praise You through it all

As I lift my eyes  
Your light is shining bright  
And I choose to sing again  
For You give me life

This is why  
I praise You, I praise You  
I lift You high  
I praise You, I praise You

Through it all  
I will keep on singing to You  
Through it all  
I will keep believing in You

Whatever happens  
There is one thing that I know  
You are with me  
Everywhere that I may go  
I will trust You  
And I praise You through it all  
Yeah, I praise You through it all  
Yeah, I praise You through it all

Even in the darkest day  
Nothing will stop my praise  
Nothing will stop my praise  
Whatever may come my way  
I lift up Your name  
I lift up Your name

Even in the darkest day  
Nothing will stop my praise

Nothing will stop my praise  
Whatever may come my way  
I lift up Your name  
I lift up Your name

Whatever happens  
There is one thing that I know  
You are with me  
Everywhere that I may go  
I will trust You  
And I praise You through it all  
Yeah, I praise You through it all  
Yeah, I praise You through it all
