

# Destroyers

Plasmatics

We are destroyers  
Of the status quo

We are the mutants that  
Make the system go

We'll amplify your fuck-ups  
And knock your mind around

We rip apart your values  
We bring the structure down

Synaptic reflexes  
We're coded in your genes

We make you self-destruct  
To satisfy our needs

Synthetic nightmare  
We crush the slow and weak

Slave masters of the future  
Domination geek

We got you where we want you  
We got you where we want you

Those now eating  
Will soon be eaten
