

# Island

PLAVE

Heavenly lights  
I never cared to view 'til now  
Love in life  
I never dared to pursue 'til now

Ooh-ooh, damned out of chances  
Felt lost at sea  
Ooh-ooh, your glances moved something in me  
You opened my eyes  
Rescued me out of the blue

Lost on this island  
Nothing new  
All black and white  
'Til you came in  
Lovely and smilin'  
Bringing hues, color and light  
Swear that I could spend every day  
Waiting for you  
Knowing what you bring to life

From my wishes  
To your kisses  
Share this island with me  
Tonight

We lit the fire  
Feel so encouraged with you around  
Even though  
I've spent so many moons in doubt  
Ooh-ooh, taking our chances, dancing at sea  
Two scattered pictures, now picture complete  
No, we can't deny  
Heaven from out of the blue

Lost on this island  
Nothing new  
All black and white  
'Til you came in  
Lovely and shinin'  
Bringing hues, color and light  
Swear that I could spend every day  
Waiting for you  
Saving my life when you smile

From my wishes  
To your kisses  
Share this island with me
