

Never Never Land

Play

(Chorus)

If you tell me that you're sorry
Maybe for another chance
If you think I'll take you back
You're in never never land
Make the same ol' tired excuses
Say that I don't understand
If you think you're still my man
Baby you're in never never land

Here we go
You play and you go home
But you can't get the story straight
That you were alone
And let me here you explain
Why there's lipstick on your face

Doesn't even really matter
What you say no more
There in a lie, in an alibi
That will make me still be yours

(Chorus)

When I'm back down
You take it for granted
And make a fool of me
I ain't going, now get out
Don't waste your breath
On useless apologies

Doesn't even really matter
What you say no more
There in a lie, in an alibi
That will make me still be yours

(Chorus)

There ain't no turning back
To what we could have been
Now that I've got my heart
Back on it's feet again
I see the way you are
You lie, you lie
Expecting me to try one more time

(Chorus)

You can tell me that you're sorry
If you think I'll take you back
You're in never never land

If you tell me that you're sorry
Maybe for another chance
If you think I'll take you back
You're in never never land

Make the same ol' tired excuses
Say that I don't understand
If you think you're still my man
Baby you're in never never

You're in never never
Baby you're in never never land
