

Compliment Each Other Like Colors

PlayRadioPlay!

If we try hard enough I'm sure we could forget it
?Cause this black hearted wedding's enough to start a panic
We were clean for three days when you were running down the block
11 minutes sober now we're counting down the clock

And Donnie says you're the reason we are here
And we all know that what Donnie says is true
So go to bed, this life is not a shameless waste
And we all know that's what it is to you, goodnight

We will overcome
Every night to the sound of the kick drum
We've got it figured out
Every night to the sound of the break down

We can stand the street
Every night to the sound the break beat
I feel like my worn hands
Are empty waiting for God's new plans

Please darling, won't you lead the way?
My world was flipped now I have gone astray
Now it falls apart
Every night to the sight of the dim stars

Please darling, won't you lead the way?
Please darling, won't you lead the way?

I take it slow because I have time
Back to the days when you were mine
Back to this faulty relationship
Back to the days when we both fit

I take it slow because I have time
Back to the days when you were mine
Back to this faulty relationship
Back to the days when we both fit

Is this it or could we still compliment
Each other like colors in harmony that make
Each other look brighter like we did in the old days
Like we did in the old days?
