There, there, your little heartbeat's fine
And I know what's taken all of your time
I can't sleep
You are all that I can see
Taken from
My room, you are all I want
You are all I want
Is it suspicious I've been gone
I've just been sleeping all of the time
I found a heart, don't make me start
Into the sky, don't make me cry
I've found a friend
Only when I choose to sin
I can't sleep
Yet I've been sleeping all the time
Sleeping all the time
I'm sleeping all the time
Sleeping all the time
I've found a heart, don't make me start
Into the sky, don't make me cry
