

## Lady Linda

Plazma

You keep the world ringing with your fame  
Over and over I hear your name  
You are a star everybody knows  
I'm so in love and my feeling grows  
Who do you need and who do you love?  
Who'll take the place next to you above?  
Everyone wonders and no one knows  
Where luck comes from and where it goes

Hey lady Linda lady Linda lady Linda  
Be my baby  
Be my baby please  
Oh, lady Linda please...

You are so far on the TV screen  
I am the one you have never seen  
You are so high but I really know  
How to rise close to you from below  
I'll be a star you will know my name  
I'll keep the world ringing with my fame  
I always wondered and I will know  
Where stars come from and where they go

I'll be your hot sun  
I'll be your cold moon  
I'll be your sweet child  
I'll be your wild beast  
I will keep trying hard  
I'll keep on trying
