

Never notice

Please the Trees

I never notice my brother has a new woman
Cuz they all look same
I never notice my brother has a new woman
Cuz they all look same
One like another
They all look same
They just have different dogs and names

I never notice
Until they're introduced to me
I never notice
Until their dogs go after me

I never notice my brother has a new woman
Cuz they all look same
They just have different dogs and names

I never notice
Until they're introduced to me
I never notice
Until they don't go after me

I never notice.
