

Hookah

Pleasure P

We takin' shots, we smokin' hookah
She foreign, exotic like my new car
I can see us in the near future
Switchin' up positions, Kama Sutra
I just wanna blow a bag and vibe witcha
Live out your fantasies, I'll do it all witcha
Spend today and all my tomorrows witcha
Ice you up and let the world know I'm witcha

Pretty face, small waist, hips on her like a ring
A bad bitch with exquisite taste
Sexy, foreign, I'm adorin', she ain't worryin'
Different flavor, hookah blowin'
Bottles in my section pourin'

Sky high, in the Boeing
We performin' like we in a porn
Wake up on the other side of the world snorin'
We gon' be in London in the morning
She rock out a couple dates when I'm world tourin'

But when she ain't around I'm feelin' incomplete
Fly her in, spend a week in Capri
All the money in the world, so much more you worth
I can't buy you love, I'll buy you Tory Burch

Carats on your fingers standin' in a church
This thing called love, don't know how it works
I'm picturin' life without you and it hurts
All I know, you give me happiness that I deserve

We takin' shots, we smokin' hookah
She foreign, exotic like my new car
I can see us in the near future
Switchin' up positions, Kama Sutra
I just wanna blow a bag and vibe witcha
Live out your fantasies, I'll do it all witcha
Spend today and all my tomorrows witcha
Ice you up and let the world know I'm witcha

I might make mistakes, I'm only human
To say I'm sorry got some help from David Yurman
Spoil you, fabrics Italian, your car German
Groupies can't wait [?]
When you ain't around you worryin' 'bout what's occurin'
I'm tunnel vision, all I see is you, no one's comparin'
With only you I share my chateau la vie
French rivièrè and a yacht sailin' down the sea

'Cross the world thinkin' 'bout you, can't go to sleep
Forever my lady we're the Jodeci
She's Celine, she's my queen
She's my reality though she's in my dreams

I'm experiencin' love I ain't believe in
[?] dressed for the evenin'
She's my reason as long as I'm breathin'

Karma say the same for the kids we ain't leavin'

We takin' shots, we smokin' hookah
She foreign, exotic like my new car
I can see us in the near future
Switchin' up positions, Kama Sutra
I just wanna blow a bag and vibe witcha
Live out your fantasies, I'll do it all witcha
Spend today and all my tomorrows witcha
Ice you up and let the world know I'm witcha
