Go and let me bless you dear

Bend it, bend it, bend it over

We're going, baby,..

I'm tryna see that pink pit, make me feel like it's Easter

I wanna see you bust that

I'm a show love

I ain't looking for nothing free, you know I got my cheese up

I've been tryna get a sneak peek

I'm on good dope, need no sleep

I've been tryna get a one on one

Me and you and you and me

I've been running my checks up

I'm good, baby, don't need no receipt

I need you to bend it over

And make that thang go right at me

Can you make them muscles move?

Make it breathe for me!

Can you make them cheeks jump?

Make them bounce from me!

Can you make that ass clap?

Make it clap for me!

And if you do that one more time

Tell you now, I'm a paint somethin

Talkin bout red bitch

Red pill, red cup, red J

Purple weed, purple drink

I can stare at your ass for days

Black bitch, pink pussy

Little bit of hair on it

Short bitch, fat ass

Watch this stack stand upon it

Whole gang's suped up

Watch her do that crazy shit

She don't want that nigga so she

Pretend she ain't got the pain and shit

Here with all my niggas

And everybody got a different business  
Shake what your mamma gave  
Matter of fact, that who I'm trying to hit  
I can't even move, I snuck before all of this biz  
That pussy sitting all right  
I'm trying to go off in that business  
All the money you made tonight  
Is time you throw it all in that business  
Pop that pussy for the realist motherfucker off in this bitch

Pussy popping, everything look good  
Good pussy alert  
I just wanna see if she can take it  
Big dick alert  
All I got is wads in my pocket  
Ain't no wallets, nigga  
All I got is sliders in my gear  
Ridin solid, nigga  
Dranking on shit that people say  
Fuck your liver up  
Smokin on shit that people say  
Cost too fuckin much  
Ride around in somethin that cost money  
Ain't no Lambo  
Told me she don't really like to suck it  
I be damned, ho!  
I'm a fall back and play my part  
Let you twerk it for me  
I'm a grab your hand and put it on it  
Let's just stroke it for me  
Hands on your knees, face up  
Go on, bend it over!  
I'm a get behind you  
Beat it good, come here  
Let me show you!
