

# Know Something

Plies

All these niggas you see me with, they know something  
And all these niggas you see me with, they toting something  
And all these niggas you see me with, they on something  
And I only fuck with niggas, dog, that'll murk something  
So all these niggas you see me with, they know something  
And all these niggas you see me with, they toting something  
And all these niggas you see me with, they on something  
And I only fuck with niggas, dog, that'll murk something

I got the mind of a millionaire, the heart of a broke nigga  
And got the motherfucking patience of a young nigga  
You an associate, not a homie if you don't squeeze triggers  
'Cause I refuse to get seen with a soft ass nigga  
You either 'bout it or you ain't, there ain't nothing in the middle  
You either buss it or you won't, old pussy ass nigga  
I been learned that a fuck nigga will get you killed  
That's why I fuck with niggas I know buss off the rip  
You live once, not twice, ain't no room to slip  
'Cause one fuck up in these streets will get you buried quick  
Nigga better know something, I don't fuck with dead weight  
You ain't 'bout that gangsta, don't want you around in the first place  
'Cause all my dogs still powder and gun smokers  
Mine always on taking something from a motherfucker  
Been wiped the smile off my face 'cause I ain't friendly  
I'm talking closed casket shit, I ain't bullshitting

All these niggas you see me with, they know something  
And all these niggas you see me with, they toting something  
And all these niggas you see me with, they on something  
And I only fuck with niggas, dog, that'll murk something  
So all these niggas you see me with, they know something  
And all these niggas you see me with, they toting something  
And all these niggas you see me with, they on something  
And I only fuck with niggas, dog, that'll murk something

I fuck with certified murkers, run with real goons  
Get out first and keep dumping, that's the attitude  
I try my best to put one of you pussy niggas on the news  
Put a hundred rounds in you, knock your insides loose  
Skied up in all back, down to the shoes  
And all can you see is the white in my eyes when I move  
Shoot to kill, not to scare, that's a street rule  
And never tote around something that you won't use  
And never talk about shit that you won't do  
And ask the city 'bout us, pussy nigga, we trap flow  
Shoot it up, then shut it down, nigga looking for you  
And you can't get no more money until the beef over  
'Cause the shit I'm aiming at, right above the shoulders  
Shooting big shit, it's coming like a fucking boulder  
You think it's a game if you wanna, pussy, then I'll show you  
This shit chess, not checkers, already done told you

All these niggas you see me with, they know something  
And all these niggas you see me with, they toting something  
And all these niggas you see me with, they on something  
And I only fuck with niggas, dog, that'll murk something  
So all these niggas you see me with, they know something

And all these niggas you see me with, they toting something  
And all these niggas you see me with, they on something  
And I only fuck with niggas, dog, that'll murk something

Talking and not being 'bout it will get you knocked off  
And playing with a real nigga, dog, that shit costs  
And I ain't the nigga you play with, boy, I'm 'bout results  
Now the question is, nigga, if you can walk the walk  
Oh, any nigga can talk thug when the lights off  
But when them lights come on, nigga, that's what it's all about  
You niggas better start thinking before you open your mouth  
These streets shit way deeper than you think it's 'bout  
I'ma put you up on something, nigga: the streets don't sleep  
That hundred-round drum, pimping, that's a lot of heat  
You better ask around, nigga, that'll stop your heartbeat  
It ain't a nigga God made I'ma let play with me

All these niggas you see me with, they know something  
And all these niggas you see me with, they toting something  
And all these niggas you see me with, they on something  
And I only fuck with niggas, dog, that'll murk something  
So all these niggas you see me with, they know something  
And all these niggas you see me with, they toting something  
And all these niggas you see me with, they on something  
And I only fuck with niggas, dog, that'll murk something

And I only fuck with niggas, dog, that'll murk something  
And I only fuck with niggas, dog, that'll murk something  
And I only fuck with niggas, dog, that'll murk something  
And I only fuck with niggas, dog, that'll murk something
