

## Calling Down An Angel

Plus One

You're afraid, it's all come down  
To this place where dreams have fallen to the ground  
Just look up, you'll make it through  
'Cause there's a heavenly being  
That's watching over you  
[Chorus:]  
Calling down an angel who will  
help you believe  
Sending out a prayer, I'm down on my knees  
Reaching up to heaven knowing you will someday see  
There's hope beyond the struggle  
Just hold on  
I'm calling down an angel  
It's not too late, it's almost over  
If you'll just wait you'll feel it lifting off your shoulders  
So keep believing, the sun always  
promises a new day  
It'll stop the rain, break the chains  
And chase the pain away  
[Repeat Chorus]  
You've been trying to be so strong  
You've been waiting for so long  
Will your miracle ever come  
Heaven's holding every single tear you cry  
And if you start to feel alone just know that I am  
[Repeat Chorus]
