

So Good

Pluto

I'm on your body
I'm on your body
(Ke-Kenoe)

I can tell from how you actin', shit in emotions
Seen you postin' someone, sayin' you rollin'
Jeans are tight, you're talkin', playin' it lowkey
Your face card official, couple of felonies
To you, paper ain't everything, it's the heart and I hear you
Say the last nigga you dealin' with, your bankroll bigger
That's life when things get complicated like Nivea
No notes, I come through like [?] pink slippers
You went boat for your b-day while your haters on the concrete
You sent him pictures, he react, but he ain't bought it
Someone hatin' on your bag, but you ain't bothered
I put money in your bag like a bank robber
Innocence, now you movin' fast, bought you every duffle
You tat his name, he made you mad and you got it covered
And he can't believe that you got it covered
You done settlin' for less, and you movin' forward

You look so good, you need a reward
You're used to men and not no lil' boys
Made you feel certain ways you couldn't ignore
What's the deal? Move your body like it ain't yours (Ain't yours, yeah)
I'm on your body (Huh)
I'm on your body
I'm on your body (Listen, look)
I'm on your body (PLUTO)

How you put me in, then leave me scarred? (You left me scarred)
How you fake your love and broke my heart? (You broke my heart)
I'm in the booth hopin' I'll see your call (See your call)
I'm on your body, wishin' you would be on mine (That's on God)
How you put me in, then leave me scarred? (You left me scarred)
How you fake your love and broke my heart? (You broke my heart)
I'm in the booth hopin' I'll see your call (See your call)
I'm on your body, wishin' you would be on mine (That's on God)
Your body next to mine is all I need, you say I'm clingy
And your love is like a drug, I feel alone, you feel me fiendin'
You played me bad like what's the reason?
You wanted me first, then played me worse
Still into you, I swear I'm fiendin', like... (I swear I'm fiendin')

You look so good, you need a reward
You're used to men and not no lil' boys
Made you feel certain ways you couldn't ignore
What's the deal? Move your body like it ain't yours (Ain't yours, yeah)
I'm on your body (Huh)
I'm on your body
I'm on your body (Listen, look)
I'm on your body

I'm on your body
I'm on your body
