

Take You To Pluto

Pluto

Shit, I'm high right now, ha
We geek-geek
Uh, uh

Take you to Pluto, baby, can you roll one?
That bud right there to keep my mind calm
Smokin' good, this the real one
I get high as fuck 'til my mind gone

Get high on your memories
High, I feel you missin' me
High on your, uh

Pink rocks or the purple ones
Next who? This a finger thumb
I get high as fuck, then forget about you
Just taste two, let's fix another one
I get high, take you to Pluto, bitch
Geekin' gas, can't feel shit
Out of body, new experiment
I'm high as hell
Past geekin', said I'm reggie
I get high as fuck on the daily

Take you to Pluto, baby, can you roll one?
That bud right there to keep my mind calm
Smokin' good, this the real one
I get high as fuck 'til my mind gone

Every night
All the time
All day
We get high
