PnB Rock

Who am I to say no?  
To all these bad bitches on my timeline  
Telling me that they in love  
And they always catch me at the right time

When it's night time  
Yea its dark out  
Sneak, creep out  
Yea that's what I'm talkin' 'bout  
Naked pictures in my DM's  
With' a number and a address to they house

Maybe I can turn down 10  
But I can't turn down 20  
All these bitches wanna have sex  
Cause they know a nigga got money  
I knew I had a girl at home  
But that shit ain't mean nothin' to me  
Cause I'm just like every other nigga  
Thinkin' with the wrong head  
But I remember

Ooh girl  
You used to fuck with me  
I used to fuck with you  
You was in love with me  
I was in love with you  
I know everything has changed  
Nothing is the same  
But fuck it  
Cause I should have known  
That you would leave me alone  
You would leave me alone  
You would leave me alone

But don't you act like  
You don't miss the old times  
And I don't ever cross your mind  
Don't act like you just don't care

Don't you act like  
You don't think about the past  
And all the great sex we had  
All those good old times we shared  
Don't you act (Don't you act)

Like you don't miss me girl  
When we see each other  
You don't wanna kiss me girl  
I done blown up, I done blown up  
And you posed to be with me girl

But people grow, times change like the seasons  
And right now I need something to believe in  
Like all those times that you caught a nigga cheating  
For what it's worth it wasn't for no reason

Maybe I can turn down 10  
But I can't turn down 20  
All these bitches wanna have sex  
Cause they know a nigga got money  
I knew I had a girl at home  
But that shit ain't mean nothin' to me  
Cause I'm just like every other nigga  
Thinkin' with the wrong head  
But I remember

Ooh girl  
You used to fuck with me  
I used to fuck with you  
You was in love with me  
I was in love with you  
But now everything has changed  
Nothing is the same  
But fuck it  
Cause I should have known  
That you would leave me alone  
You would leave me alone  
You would leave me alone
