

Main Bitch

PnB Rock

Yeah
Tell me whatchu wanna do
We could do it right now
I'm talking about right now
Let's hop on a flight now
Let's fuck up this check and ball, get whatchu like now
Hop in the wraith with the stars, let's turn the lights down
I drove leanin', shawty so dangerous
I wanna glow you up, make you famous
What's your dreams, what's your goals, girl just name it
I ain't capping, I just might make you my main bitch
Shawty way too bad, like who claiming that
When I first met her, she had a Birkin bag
And a rollie too, girl I noticed you
Shot my shot, like a real nigga supposed to do
Let's have fun girl, when I spin through
What's your sign girl? Whatchu into?
We could hop on a jet, bring your friends too
You know I, got a check, there's no issue
Put you in first and buy you new purses
No, I don't care what it costs
She get wet like waterfalls, I know what turns you on
Gripping your neck while I'm all in your walls
I got you moaning now

Tell me whatchu wanna do
We could do it right now
I'm talking about right now
Let's hop on a flight now
Let's fuck up this check and ball, get whatchu like now
Hop in the wraith with the stars, let's turn the lights down
I drove leanin', shawty so dangerous
I wanna glow you up, make you famous
What's your dreams, what's your goals, girl just name it
I ain't capping, I just might make you my main bitch

I drove leanin', shawty so dangerous
