

# Real Luv

PnB Rock

I can't find real luv

Yeah Yeahhh

Real luv

It was something about your eyes when I met you  
Yeah I swear I caught a vibe when I met you  
Yeah I swear I fell in love when I text you  
Cause they way you fucking talk was intellectual  
Member all the times I came to your rescue  
Had to wipe your fucking eyes cause they recked you  
Used to hit it from the side when I sexed you  
God I gotta thank your mom cause she blessed you  
Yeah you used to hit my line get faded  
I remember all the times we'd get wasted  
Girl I used to drop you off on the west side  
Used to hit it from the back that's your best side

I can't trust or think now

All that's on my brain now

I can't find real love now

Some feel like a drug

You know I thought about you last night

I was on my last flight

I can't find real love now

And you know it, yeah you know it, yeah you know it

Since the last time

I been fucking all these hoes just to past time

I remember when I used to give you all my time

I know you would break my heart just show me all the signs

This shit is crazy used to be my baby

I'm really ready for you to play me

You really tried it

Used to be my bitch

You really lied bitch and now I hope you die bitch

And I can't trust or think now

All that's on my brain now

I can't find real luv now

Some feel like a drug

You know I thought about you last night

I was on my last flight

I can't find real luv now

And you know it, yeah you know it, yeah you know it
