PnB Rock

I don't really care about this  
You talk too much about me  
You make things up about me  
Never would've came up without me  
From people we love, yeah

I don't really care about this  
And I don't ever waste a minute  
You talk too much about me  
You make things up about me

Why you wanna make things up  
Why you wanna waste my time  
Girl we used to be in love now  
Now I don't really care about you no more  
We used to be perfect  
Now it ain't working  
All my niggas swerving  
Drop top coupes  
Girl you used to be my boo  
Now you telling lies on me  
Shawty this is sad but true  
Yeah yeah drop top coupes  
Girl you used to ride with me  
Girl you used to slide with me  
Now you telling lies on me

I don't really care about this  
And I don't ever waste a minute  
You talk too much about me  
You make things up about me  
You talk too much about me  
You make things up about me  
Never would've came up without me  
From people we love

You talk too much about me  
Say I don't show you love, you doubt me  
I'ma roll one up, get cloudy  
When my pockets wasn't up, you wasn't round me  
Why you wanna roll one up  
Why you keep calling my line  
Girl you used too keep it G but  
I don't need to smoke one with you  
Drop top coupe, girl you used to be my boo  
Now you see my brand new thing  
Wishing you was in her shoes

I don't really care about this  
And I don't ever waste a minute  
You talk too much about me  
You make things up about me  
You talk too much about me  
You make things up about me  
Never would've came up without me  
From people we love

I don't really care about this  
And I don't ever waste a minute  
You talk too much about me  
You talk too much  
You talk too  
(I know what I like, I know what I like from you)  
You talk too much  
I know what you like, I know what you like from me
