

Who Changed?

PnB Rock

Me and you we just don't get along
You make me feel like I did you wrong
When I always kept that shit 100
All the money all the bitches but I never fronted
Late nights me and you getting faded
Talking bout' what we gon' do when we make it
Now a nigga on the road now I'm doing shows
And you don't even call my phone fuck is going on
You say I changed I say you did
Ever since your boy got on, you on some new shit
Man it's crazy cause I wanna find a new bitch
It's fucked up cause I only trust you bitch, damn

I got all these bitches on my phone
I can't even lie girl you the only one I want
But you know I'm petty so I'm gon' act like I don't
And you petty to so we just gon' both be alone
All this dope all this lean got me gone
I'm in my feelings yea I'm really in my zone
Shawty me and you we grown and we both know what we want
Baby girl wont you just stop playing come home

Me and you we just don't get along
You make me feel like I did you wrong
When I always kept that shit 100
All the money all the bitches but I never fronted
Late nights me and you getting faded
Talking bout' what we gon' do when we make it
Now a nigga on the road now I'm doing shows
And you don't even call my phone fuck is going on
You say I changed I say you did
Ever since your boy got on, you on some new shit
Man it's crazy cause I wanna find a new bitch
It's fucked up cause I only trust you bitch, damn
