

# Bring Me Down

Point North

I keep my mouth sewn shut  
What a wise man I've become  
Teeth marks in my tongue  
'Cause there ain't nobody I trust

And I know (they're climbing up, they're climbin')  
The higher they get the further they'll fall  
So I pull (I'm pullin' up, I'm pullin')  
We hard as I can just to sever the rope

I won't give them the chance to bring me down

Fool me once, fool me twice  
No reply  
Parasites got an appetite for me  
See the hype so they climb  
My golden vine  
Parasites got an appetite for me  
I won't give them the satisfaction  
Fool me once, fool me twice  
You'll pay the price  
Paradise ain't the place you wanna find me

I gotta pick and choose who to lose  
I'm walking through a spiderweb  
Like it's a noose  
And it ain't ever coming loose  
I'm turning blue  
Here we go, there ain't nobody I trust

And I know (they're climbing up, they're climbin')  
The higher they get the further they'll fall  
So I pull (I'm pullin' up, I'm pullin')  
We hard as I can just to sever the rope

Paradise ain't the place you wanna find me

You feel attached  
Your bond aligned  
You're draining me  
Of what you can find (slowly)  
I break away  
I run and hide  
I got a parasite in my life  
So I'm cutting ties

Stay in my own forever  
What a lonely grave where you'll never

Fool me once, fool me twice
