

Dark Days

Point North

I'm done with these dark days
I'm putting them behind me
I'm sick of the same thing
Cuz the fall is never ending

Growin' up seems so hard sometimes
I lose friends and family dies
I spend my life just trying to be liked
They rubbin' dirt in my eyes until I'm blind

Why I gotta burn it down in ashes
Always messin' up my life and I can't fuckin' stand it
Now I don't trust nobody like the world is on a blacklist
So I make the most of all the madness

I'm done with these dark days
I'm putting them behind me
I'm sick of the same thing
Cuz the fall is never ending

And I don't want you to worry
That I'm lost on my own journey
I'm done with these dark days
So watch me light up like a spark to a flame

24 years being down like that
Turned it all around when I got my bag
I won't let the old me live so
I hammer nails in the coffin of the past

Fuck you, pay me
No one's gonna play me
This is what you get for always tryna change me
Suffocate the voices, circling my head
Now I'm on a killing spree, I'm so sick of these

Dark days
I'm putting them behind me
I'm sick of the same thing
Cuz the fall is never ending

And I don't want you to worry
That I'm lost on my own journey
I'm done with these dark days
So watch me light up like a spark to a flame

Why I gotta burn it down in ashes
Always messin' up my life and I can't fuckin' stand it
Now I don't trust nobody like the world is on a blacklist
So I make the most of all the madness

I'm done with these dark days
I'm putting them behind me
I'm sick of the same thing
Cuz the fall is never ending

I'm done with these dark days

I'm putting them behind me
I'm sick of the same thing
Cuz the fall is never ending

And I don't want you to worry
That I'm lost on my own journey
I'm done with these dark days
So watch me light up like a spark to a flame
So watch me light up like a spark to a flame
So watch me light up like a spark to a flame
