

Psycho

Point North

I'm sorry I ruined another night for you
Stressing out breaking down
Swear that it's not your fault I got these issues

Yeah they get the best of me
And you're left with the rest of me
Saying I'm sorry behind the door
Throwing up on the floor

It's so lonely down here with me
I think need somebody
Someone who can save me
Wishing I was not the problem
I'm falling apart

Right now I feel like a psycho
Awake with my eyes closed
Somebody save me now
Just pull me out of this cycle
'Cause I'm 'bout to spiral
I don't need a miracle
Just tell me I'm not alone

Heavy lies the crown that I'm wearing
And you don't need me now that I'm a burden
So put me in the ground 'cause it ain't worth it
'Cause I don't know if it's all real but I hate the way it feels

It's so lonely down here with me
I think I'm falling apart
I think I'm falling apart

Right now I feel like a psycho
Awake with my eyes closed
Somebody save me now
Just pull me out of this cycle
'Cause I'm 'bout to spiral
I don't need a miracle

But sometimes I just feel like the devil made me
I think I'm going crazy
It's like the devil made me
I think I'm crazy

I feel like a psycho
Awake with my eyes closed
Somebody save me now

Right now I feel like a psycho
Awake with my eyes closed
Somebody save me now
Just pull me out of this cycle
'Cause I'm 'bout to spiral
I don't need a miracle
Just tell me I'm not a-
I don't need a miracle
Just tell me I'm not a-

I don't need a miracle
Just tell me I'm not alone

I'm like a psycho
