

Starts to really feel like we'll be doing this forever  
Well if we're fuckin dying then we're dying here together  
It's like what's keeping the world alive  
Is when the people are terrified  
So what's the point of life when you put it on a price tag  
They just rollin dice with our lives like a sage bet  
So give us all the guns just for fun til we're all dead  
Then do it all again

When will we all recover  
We're all just waiting for the day  
We're not stuck in the same place  
We started from  
We're under pressure like a tidal wave  
Crashing down  
Until we break

Hypocrites, sycophants do it like a dance  
Man you're so devine, saving lives, that's some gas  
When an old white man couldn't keep it in his pants  
Hell flip-flop like a TikTok trend  
You ain't gonna stop the war from comin  
And the chances that you'll win are next to nothin  
Stand in solidarity solidarity  
As their bodies turn to policy policy

When will we all recover  
We're all just waiting for the day  
We're not stuck in the same place  
We started from  
We're under pressure like a tidal wave  
Crashing down  
Until we break

It won't be like it was  
It's hell for all of us  
Cause when enoughts enough  
We'll all be spilling blood

March  
No justice no fucking peace

When will we all recover  
We're all just waiting to be saved  
But nothings ever gonna change

When will we all recover  
We're all just waiting for the day  
When no one has to die in vain  
Anymore  
We're under pressure like a tidal wave  
Crashing down  
Until we break
