

# Revival

Poliça

Just let me leave you  
The way we are  
It's not unlike me to beg  
It's gonna take some  
Take away the feel  
And dis-convince you I'm the one

Just let me leave you  
And let me free  
I need to hurt someone's  
Great held belief  
Say I'm a victim  
Or I led you long  
Would you believe me  
When I tell you I was wrong?

Just me leave you  
And let me go  
To cut the circle  
I'm back living on my own  
The flowers blooming when  
I hear your name  
At least that sounds right  
When I'm drinking

The setting sun will make me miss your eyes  
When all our words were lost in dreams that would not die

Just let me love you, the way I do  
Your fast and slow on what we could have been  
I see your love in colours  
Reminds me of him  
The one you used to be  
That held me  
And would let me in
