

Robot Assisted Suicide

Polkadot Cadaver

Choose your fate, set a date
Flip the switch, fix the glitch

It's over now, the dream is dead
Doom, baby, doom..
Lost your will, lost your way
The rumor is that you want out

Put your faith in science now, circuits and hardware
The past was a gift that we have learned from
I brush the hair of mother death; apply her makeup, like a mortician
Pulling a shallow breath, exhale the dawn - I hold the hand of mother
death
Convey my admiration with sycophantic devotion, this is my new testam
ent

Take the easy, take the easy way, take the easy way out
Look deep inside the android's eyes; smile and wave goodbye
Put your faith in science now, circuits and hardware
The past was a gift that we have learned from

I brush the hair of mother death; apply her makeup, like a mortician
Pulling a shallow breath, exhale the dawn - I hold the hand of mother
death
Convey my admiration with sycophantic devotion, this is my new testam
ent

[Chorus]

Embrace technology to correct your physiology
The great escape for future minds - robot assisted suicide
As you enter the unknown, you are a star reborn
Leave your sordid past behind - robot assisted suicide

[x2]

Choose your fate, set a date
Flip the switch, fix the glitch

It's over now, the dream is dead
Doom, baby, doom..
Lost your will, lost your way
The rumor is that you want out
Take the easy, take the easy way, take the easy way out

[Chorus]

(I brush the hair of mother death) Set a date
(Apply her makeup like a mortician) Flip the switch
(Pulling a shallow breath) Fix the glitch (exhale the dawn)

(I hold the hand of mother death) Set a date
(Convey my admiration with) Flip the switch
(Sycophantic devotion) Fix the glitch

This is my new testament
