

## Back To The Start

Polly Paulusma

You've got something to hide  
And you can run all you like  
'Cross plains and over mountains  
But chains you drag behind you leave track marks in the air  
You're asleep on your feet  
And all the people you meet  
'Cross plains and over mountains  
Fooled by mirrors, think the lights are shining brighter there  
Come on, come on  
We're going back to the beginning  
You took a wrong turn  
And you take it to heart so easy  
When you come home  
I will be waiting by the fire  
We'll take it all back to the start  
What you trying to prove?  
If you love it then let it fly  
'Cross plains and over mountains  
But when you left her, you kept her little feather in your hands  
She's your rose-fingered dawn  
So why are you gone?  
'Cross plains and over mountains  
Peering out into the darkness with what light remains  
Come on, come on  
We're going back to the beginning  
You took a wrong turn  
And you take it to heart so easy  
When you come home  
I will be waiting by the fire  
We'll take it all back to the start  
Yeah, we'll take it all back to the start  
Come on, come on  
We're going back to the beginning  
You took a wrong turn  
And you take it to heart so easy  
When you come home  
I will be waiting by the fire  
We'll take it all back to the start  
Yeah, we'll take it all back to the start  
Yeah, we'll take it all back to the start
