

## It's Not Me

polnalyubvi

We are alone and evening city light  
Run away from home to the starry sky  
You afraid that she will break (say)  
Please don't wake me up again

Is not me. It is she  
Is not me. It is she  
Is not me. It is she

Now you see two shadows, they're alive  
All your torment, all your lies  
She was perfect she was kind  
You can't get her of your mind

Is not me. It is she  
Is not me. It is she  
Is not me. It is she

You play, foul play  
Change your gloves like I change my darts  
That I throw in our past  
Now will be a precise attack

Is not me. It is she  
Is not me. It is she  
Is not me. It is she

Is not me. It is she  
Is not me. It is she  
Who broke your hearth
