Polo G

You broke that bond, now when it come to you, my feelings weak  
You let your selfish ways come in between our chemistry  
Why you play with my heart and not show love consistently?  
I put my life on the line, you wouldn't take that risk for me  
Fucked up my choice, wish I could delete all our memories  
Keep poppin' these pills, I hope it take away my misery  
I got a dead soul, I been facing blunts of my enemies  
Emotions bottled up, I don't know what's wrong and it's killing  
me

I cut so many off, my heart cold, it's December, B  
My mind keep racing, I been overthinking, I don't get no sleep  
You don't understand how hard it was, I swear this shit so deep  
I made it to the top and they all looked up in disbelief  
They hate that I'm doin' better, they'd much rather get rid of  
me

I flex with no regrets 'cause they ain't show me no sympathy  
I came a long way but I ain't as far as I'm finna be  
I promise I'ma die a legend, I'ma make sure that you remember m  
e

I used to daydream, I pictured everything so vividly  
I had a feeling we'd be rich since the elementary  
My peoples gone, got to witness everything they ain't get to se  
e

Long live Maxine, I miss your love, wish you was here with me  
You was a part of me, and since you left, I'm incomplete  
My lifestyle used to be jump shots and sticking D  
Life overwhelmed me, I said fuck school and hit the streets  
I devoted my life to that corner just so I can get a G  
Fuck a two-four, nigga, I ain't been home and it's been a week  
We used to break down eight-balls, wishing we could get a key  
Was tryna duck that indictment, the feds did a sweep  
I hope you grippin' on your gun when them drillers creep  
Lil' nigga grabbed his first glizzy, went on a killing spree  
Caught him at that red light snoozin', he thought this shit was  
sweet

If he come from that other side, we make him rest in peace  
I'm way too solid for the gimmicks, fuck the industry
