

Heart of a Giant

Polo G

Damn Mikey

Cold and abandoned, chills runnin' through her spine, just for thinkin' he won't

I remember plans for forever, guess we won't get what we want

Tryna force myself not to care until I genuinely don't

Heart of a giant, walkin' to the beat of my own drum, know they hate hearin' me stoned, uh

I had dreams of touchin' ki's, no piano

Don't fuck with me 'cause you feel like you got to

Said she writing someone name, her latest tattoo

Said I left her broken, I ain't try to

But you whatever you want, you know I got you (I got you)

Arguments with my BM, she said a lot to hurt me

I was goin' numb, but that was back when I was poppin' Perkys

Grindin' hard for these fabrics, now I feel like Prada cursed me

I'm tryna sell off my conscience, they sell off controversy

Can't compare his numbers to mine, that's 'cause the block was thirsty

Out in them trenches, stay a while, I keep a Glock with thirty

Them members left a bloody scene, that's how our mob did dirty

Score, fast breaks, hit up his body, they shot up his jersey

They keep forgettin' who got the city, might make copies of my statsheet

Get up close, knock out his grill, we don't rap beef

Hop out the car and turn that bitch into a track meet

Runnin' from the graveyard, so we pack heat

Cold and abandoned, chills runnin' through her spine, just for thinkin' he won't

I remember plans for forever, guess we won't get what we want

Tryna force myself not to care until I genuinely don't

Heart of a giant, walkin' to the beat of my own drum, know they hate hearin' me stoned, uh

Youngin' was already the coldest, you just ain't know it

Too many scars, heartbroken as he got older (Yeah, yeah)

Glock in his pants, if he show it, he gonna blow it

All for them bands, he be rockin', he be rollin'

And niggas, they got tension, but they beef be undercover though

I can't lie, I miss it, but these bitches ain't one hunnid though

I thought you was different, but you built just like these other hoes

Had me in my feelings once I seen how your true colors show

But I carry on, act like I don't care 'bout that

Tried to change her last name to Green until I seen her heart was black

Try my best to lead the team, life of a quarterback

Heard the news about DeeDee, I damn near had a heart attack (Yeah)

Cold and abandoned, chills runnin' through her spine, just for thinkin' he won't
