

# Welcome Back

Polo G

My shorties hot, they flipping blocks, one shoot one grab the wheel  
I seen some shit I'm scarred for life I wish my eyes would heal  
Slide 30 nights 30 days, we don't know how to chill  
Just keep your gun tucked and your head up in that battlefield

Niggas so goofy I don't even wanna make eye contact wit em'  
Get out his body, trynna play savage let that compact hit him  
Listen to them lyrics that's sum real shit nigga its beyond facts in em'  
ODA the gang winning like the Cavs when they got LeBron back wit' em'  
Trynna drill somethin' come and join us, Polo keep a contract wit' em'  
Wanna be wit' us for initiation, you just gotta slide on them niggas  
Opps social beef and so I gotta I got em' wit' em' that's how we reply to th  
em niggas

Hop out the car hoping shit down soon as I ride wit' them drillas  
Make a big nigga freeze and take a shit once he see's the size of this blika  
We was in them trenches trynna see tomorrow, so we just relied on them trigg  
as

Shots put out this 40' make his legs wobble, you would think we were passing  
out liquor

Naw it ain't that, thats how we react cause' they took one of our members  
They know why I'm throwing up L's, as long as I'm alive they won't forget yo  
u

Take me to them days when I talked to gang thinking like damn I remember  
Two months later, took another loss felt the same pain in November  
Emotions out of place, head not right, I was traumatized, I was bitter  
Moving through that jungle, trynna get back home just to run the land like I  
'm Simba

Man them hard times rock my innocence left me with the mind of a killa  
Feelin' like damn I lost control of my state of mind and my temper  
Now I'm in the field on the front line throwing for my team like a pitcher  
I just wanna ball down in L.A. like I just got signed to the Clippers  
Gucci everything, dripped in double G's, I got that design on my slippers  
Move a bad bitch, call up bronem like she don't even mind we can split her  
Once I level up imma keep grindin' till the day I reach 7 figures  
Somewhere in the hills at a golf course thinking about a way to get richer  
Niggas simple minded, thinking short term, what I got my eyes on is bigger  
Comin' from the hood money, sex and murder that was really all I can picture  
Fuck it pop a pill, now my teeth grinnin', for the guys I'm going off the hi  
tter

Want my grandma back and my Uncle Lamp wishing it could be that simple  
Now young and heartless I done went numb, ion even feel shit or little  
Bitch you be with opps don't come on the block, ain't no being stuck in the  
middle

Man these hoes sick they'll play that role, they'll crack a smile just to tr  
ick you

Catch you on the corner, loose off the drugs then tell em' boys come and get  
you, then act surprised trynna play crazy when they see them bullets start  
to hit you

Me I can't go, don't care if you cute, ion care how much your ass jiggle  
Gucci gang, crazy 1300 rings, so you can't deny that I'm official

[?] let 12 go yea we just shoot we don't dribble

Wanna fill them bombs, we'll terrorize your fonem come thru wit' a missile  
Make a nigga flip and I'm on his head when I get to dumping out the nickle  
Hollows eat him up, biting on his ribs man them bitches chewed through the g  
rissle

I was about 10 found out that I'm gifted, I can paint a picture wit' a penci  
l

Had to write it down cause' I couldn't explain everything that ran through my mental  
I just left the county now I'm charged, yea bitch I'm really in my zone  
Looking disappointed damn near every day, wasn't nobody picking up the phone  
They gon' be the ones once I pass away talking bout' they can't believe I'm gone  
They gon' be the ones once I get to thumping still expecting me to put them on  
They gon' be the ones say I switched up when I tell them they can't get along  
Now its Fuck niggas and these Bitches I'm gon' have to do this shit alone  
Make a muscle mode imma flex on em' like a nigga feeling real strong  
Wanna take the time tell my momma sorry, this for everything I did wrong  
I know all the time we don't see eye to eye, I be wishing we can get along  
Wanna let you know that I love and appreciate you if you take the time to hear this song

My shorties hot, they flipping blocks, one shoot one grab the wheel
