

Bluetopia

Polo & Pan

A frozen moon at midday
When all the stars come to play
Attracted by the sun
My tears will go to heaven
Something wrong with this crown
When I look up, I feel down
A breath of fresh air
Under the sea, I don't care

A summer fling in the sky
Broken wings that can't fly
Dancin' in the night
Fingers touch the candle light
Flowers grow in my head
As I recall what you said
Through the looking glass
My heart is blue as the grass

Bluetopia
You told me true
Sun is back with skies of
Bluetopia
You told me so
Life is good, let's watch the
Show

A forest burns in the lake
Like my sweetest mistake
Shoulda heard my call
Running up the waterfall
A river of illusions
A million good solutions
Take a chance my friend
The last word is not the end

It's over
It's over
The rise of

Bluetopia
You told me true
Sun is back with skies of
Bluetopia
You told me so
Life is good, let's watch the
Show

Life is good, let's watch the show
You told me true
You told me so
Life is good, let's watch the show
Life is good, let's watch the show
