

Chamallow

Polo & Pan

Something up in the sky
Has me wondering why
The sun feels so good
While I'm strolling in the hood

Something here and now
Has me remembering how
I used to see your face
Not in the digital space

I want glee with friends
The sun ascends
A spoonful of love
Let's get down from above

I want my family close
With all the good folks
Hey Mama, hey Papa
Enjoy the show

We're just one big family
With a common destiny
Just a-spinnin' all around the sun
It's one big comedy
A-lookin' down at you and me
Just a-swingin' all around the sun
All around the sun

Tell us all the sign
Heard it through the grapevine
(Through the grapevine)
It's not what it seems
'Cause life is nothing but a dream

Enjoy every hour
Be it sweet or sour
Hey Mama, hey Papa
Give us the power

We're just one big family
With a common destiny
Just a-spinnin' all around the sun
It's one big comedy
A-lookin' down at you and me
Just a-swingin' all around the sun

We're just one big family
With a common destiny
Just a-spinnin' all around the sun
It's one big comedy
A-lookin' down at you and me
Just a-swingin' all around the sun
All around the sun

Sun, sun, sun, sun
Sun, around the sun, sun, around the sun
Sun, around the sun, sun, around the sun

...
