

# Bloodbath

Polyphia

Day after day  
Arms reach to salvation  
I'll leave the parade  
Watch me and wait

I felt you leaving  
Your eyes deceived me  
You left me bleeding  
In the garden of Eden

Lucid  
Violent root [?]  
Release your hate  
I believe you're next

It's inside your head  
Where you create your own world  
One more way out of this

I'm afraid I don't know  
I'm afraid I don't know

I have become this bath [?]  
They could not let me be  
Feel this fucking hate  
Interact within your scene [?]  
I'll set this fire to everything in sight [?]

I felt you leaving  
Your eyes deceived me  
You left me bleeding  
In the garden of Eden

One more thing  
If it should all cave in  
Remove your name  
Make your promises

It's inside your head  
Where you create your own world  
One last way out of this

I'm afraid I don't know  
(Know-know-know-know-know, hey)  
I'm afraid I don't know  
(Know-know-know-know-know, hey)
