

Seven

Pomplamoose

Sound too familiar
I guess I didn't check the facts
I could've been clearer
Or made a joke and no one laughed
Wish I could take it back now
More than you know

Ohhh
Why did I stutter?
You must think I'm an idiot
Or just another
Dumb trophy wife who's nice to look at

I play it back one more time
Can't let it go

Seven's where I counted down from
Doing my embarrassment
"No one will remember what you said"
That's what I told myself
Seven's where I counted down
The conversation's long been dead
I wish that I could get those seconds back
Get those seconds back
Get those seconds

After a few drinks
It's hard to gauge the audience
I can't tell what you think

I guess that didn't make any sense

Wish I could take it back now
More than you know

Seven's where I counted down from
Doing my embarrassment
"No one will remember what you said"
That's what I told myself
Seven's where I counted down
The conversation's long been dead
I wish that I could get those seconds back
Get those seconds back
Get those seconds

I play it back one more time
Can't let it go

Ooooh ooooh ooooooh

Seven's where I counted down
The conversation's long been dead
I wish that I could get those seconds back
Get those seconds back
Get those seconds back
Get those seconds back
Get those seconds
