

Just a Song

Pony Pony Run Run

Precious time is missing
Everybody's looking for feelings
Even someone like you
And people like me
Precious life we're missing
It seems so hard to enjoy a dream
For someone like you oh-oh
And people like me oh-oh

All the songs that we need to know
All the songs we need to be true
Just a song, and you need to know it
Just a song missing inside you

Blindness is no relief
Only if you need to forget
Someone like me
Or people like you

Hopeless, we are waiting
Everybody's looking for a fate
Even someone like you oh-oh
And people like me oh-oh
