

## CAN'T UNDO IT

Poo Bear

Never should have dicked you down like I did  
Never should have went on and on to the depths of your ocean  
Know you never been the places we went  
But it was my priority  
To leave the best impression  
Now I can't undo it (oh)  
I can't undo it  
Drained all your fluids (oh)  
Now I can't undo it

Gave you that 24 play  
Didn't miss an hour of the day  
Occupied your space  
Exploded on me at a record pace  
Remember that looked like you went up to heaven  
All of the angels were singing  
Felt like a curse and a blessing  
Had your body like ooh  
Ooh Lord have mercy

Never should have dicked you down like I did  
Never should have went on and on to the depths of your ocean  
Know you never been the places we went  
But it was my priority  
To leave the best impression  
Now I can't undo it (oh)  
I can't undo it  
Drained all your fluids (ooh)  
Now I can't undo it

No matter how hard I try
